

The Quantum Empowerment Training Program™

Basic Introduction:

Through our global community and alliance network, we gather and employ the most advanced wisdom, techniques and tools for removing hindrances and empowering people to create the life, business and/or community they desire in any and all aspects/areas; and achieve greater levels of their own potential and success.

We apply all this through our Quantum Empowerment Institute™ offering leading-edge empowering Holistic (whole being) educational training classes and workshops. We also offer Coaching/Mentoring and Counseling/Therapy services to support our clients/students in recovering and maintaining wellness and applying the principles we teach in our training classes and workshops.

The Problems We Address:

Most people know **literally nothing** about their **true** potential, let alone **how** to pursue it. Our traditional government/corporate “educational” system was established to teach people the basic principles needed to fit into society and become productive members of it. It doesn't even teach you how to stand up for your rights and protect your family from physical or corporate attack and theft, let alone "be all you can be", whether personally or professionally.

According to many studies over the last few decades: the very (ancient Greeco-Roman) methods on which these schools are built were designed for other kinds of teaching and fail to properly educate us. Tests have shown that people are learning/**retaining literally almost nothing** from traditional schools. This is why 90+% of even college graduates (including those with multiple degrees) fail to create the successful career they desire, let alone live "The American Dream" or **even simply live a happy and peaceful life.**

The methods which have been developed, which are much more successful due to **actually working with, rather than against, how our minds actually work, remain isolated** to a few small organizations pioneering these techniques, and have not been implemented even partially by the mainstream educational system, despite blatant and long-standing success.

In spite of blatant flaws in their outdated and backward methods, and even in the face of blatant criticism by great minds such as Einstein and Andrew Carnegie: due to the corporate executives controlling the government and educational system; it is unlikely that we will see

such changes implemented in our lifetime.

On top of these facts, we must consider the study of human potential; which is itself a rare endeavor in this modern rat race society. Most people are too busy working long hours (proven to be unhealthy and in other ways detrimental, leading to pre-mature aging/degradation of the body and other illnesses & diseases), to even consider other ways of learning and living. Getting access to such unusual knowledge, and then learning how to properly implement it, is literally unheard of.

Learning how to achieve your full potential is rare, specialized knowledge many people simply don't know where and how to learn, or care enough to pursue it when they do: as they're too busy filling the emptiness in their hearts with superficial pleasures, which evaporate quickly like a morning mist and leave them lonely and unfulfilled in their beds whenever they sleep alone, or even often when they don't.

Many people simply don't know how to become the person they wish to be, let alone create the life they want or open their minds to even greater possibilities. They also are often unaware of what is holding them back, except when they feel fear: which most people don't understand or know how to deal with, and so they run from it to said superficial pleasures as well as self-medication.

Due to all this: most people are unhappy with the lives they live, unsatisfied with who they are and the career they are in, and are stressed and sick quite regularly, if not constantly. They are aware of the unusual people who seem happy, confident, and rarely sick, but due to their lack of education they often assume that these people are just “different“, “lucky“, or otherwise “special“, and something they can never be. **This is however quite far from the truth.**

Not only that, but **95% percent of the stress most people go through is needless**, and is **caused by what we have come to call mental viruses**: limiting or conflicting beliefs which are inaccurate; and get in the way of your ability to act in an empowered manner to achieve happiness and success. Simply put; these limiting or conflicting beliefs/mental viruses are what many spiritual traditions and psychologists alike accurately call “wrong thinking“.

This virus-created stress contributes significantly to a majority of illnesses and dis-eases by interfering with and lowering the immune system and organ functions, and according to recent research: it even distorts DNA, causing serious and even life-threatening bodily dysfunctions which might otherwise not be a problem. You are Not a victim of your heredity/genes!

The next, and often most important piece of the puzzle (which our founder specializes in, among other things), is PTSD: Post Traumatic Stress "Dis-order". This is basically the term psychologists give a type of emotional "bagage" in which the emotions are unusually extreme: having built up like pressure in a volcano, to the point that the person often over-reacts to their experiences.

The reason for this over-reaction is that the sufferer is actually experiencing not only the emotional response to the present moment, but is reliving the un-released emotions from the traumatic memories of the past. It can be so extreme, as often is the case with the "poster-child" of PTSD - the traumatized military veteran; that the sufferer can actually re-experience not only the emotions, but relive and re-enact the memories: totally oblivious of the present moment, surrounding environment and even people around.

Until recent decades, very little information and understanding was available to mental health professionals to even begin to understand, let alone treat, sufferers of this "dis-order", leading many to accuse the sufferer for imagining it all, and offering to solutions whatsoever. However, advances in both emotional understanding and energetic sciences have finally led to recent breakthroughs which now allow for the understanding and resolution of this and other related emotional "dis-orders" through specialized training and systems.

The Solution – Coaching and Brain Re-training!

- ◆ We specialize in identifying and removing these "mental viruses" and restoring your "mental software" to proper function, empowering health and well-being; teaching you to be the master of your own life and mind in the process.
- ◆ We apply the scientific AND spiritual knowledge proven over time to be the most accurate and effective, as well as various helpful systems, tools and technologies. We help you become the person you want to be and create an enjoyable and fulfilling life experience through your business, personal and community life.

We also teach you what unusual potential others have achieved and how, and how to apply these principles.

- ◆ We customize our work to each person's situation and goals.
- ◆ We offer various plans and packages, but the basic format of all of them is: 1-2 hour classes and workshops on many subjects, which give you the understanding necessary, and then coaching sessions, ranging from once a month to once or twice a week; to help you apply what you learn and work through your individual challenges to create a successful life and explore your full potential.

What most people need to work on is their beliefs and habits. **This requires re-programming** of the sub-conscious mind/**mental hard drive.** This can be done in many ways, but the process is always the same; what we call Mental Virus Removal and Mental Rehabilitation:

- **Goal Analysis** - Clarify what you want to achieve
- **Strategy Session** - Create an Empowering Action Plan, typically including:
 - Mental Virus Check - Identify the limiting, conflicting and/or missing belief(s)
 - Virus Deletion - Remove limiting/conflicting beliefs
 - Install/Restore Beneficial Software
 - ◆ Educate/Re-educate with beneficial and empowering beliefs, tools, skills and systems
 - ◆ Mental-emotional restoration to heal past wounds/traumas and the baggage from such

- Advanced Program Creation - Create pattern of action (habit) based on empowering knowledge
- **Follow the Empowering Step-By-Step Action Plan**
- Repeat steps until all viruses/interfering beliefs are removed, proper education is established, wounds are healed and goals are achieved

Understanding Our Services:

To understand our **Holistic** work, you must first understand some basic concepts:

1. You must first understand what Holistic means

- **Holistic means whole/complete.** An online dictionary gives these definitions:
 - Emphasizing the importance of the whole and the interdependence of its parts.
 - Concerned with wholes rather than analysis of or separation into parts.
 - In other words: Holistic work focuses beyond the parts to the bigger picture they create, like puzzle pieces, in which they are all one inter-connected unit or system
 - In the case of people, this means: we offer services benefitting the mental-emotional level, the spiritual/subtle energy level, and the physical level of each individual, relative to their interests

2. You also must understand that, according to physicists; everything is energy

- Physical “matter“ has been proven and seen (with electron microscopes it can literally be seen with your own eyes) to be nothing more than energy fields/bundles of varying density, (magnetically repelling to create the illusion of solidity/touch).
- Essentially, it's a hologram, a light projection, but magnetic fields are strong enough to push back when "touched" to make it seem solid.

We study and approach each subject from a unified perspective and understanding of Both science and spirituality. We have spent many decades reviewing and applying lifetimes of knowledge from hundreds of experienced practitioners from all walks of life worldwide, past and present, to glean the wisdom of the ages and apply it to our everyday lives as well as our service to others.

What We Offer:

- Holistic Wellness Empowerment™ – our “whole being” approach to wellness combining mental-emotional, physical and spiritual Coaching/Training/Counseling and Therapy provided by one or more service providers from our global team/network.

→ The Mental-Emotional Energy Level

- ◆ Holistic Human Potential Coaching/Training & Counseling/Therapy, including specialized education and techniques/systems such as:
 - Jungian + Alan Watts Style Depth Counseling/Spiritual Therapy
 - NLP (Neuro-Linguistic Programming used by Tony Robins and other world-renowned experts in human potential, training corporate leaders and olympic athletes alike)
 - EFT (Emotional Freedom Technique)
 - Quantum Empowered Mental Virus Removal & Reprogramming™
 - This is a unique system developed by The Quantum Empowerment Coach™ - Christopher Moeller, Certified Hypnotherapist, Level 4 Reiki Master Teacher and practitioner of many other empowering systems and techniques.

Hypnotherapy/Guided Visualization, despite the hype, is a powerful PARTNERSHIP system (used by both spiritual and scientific practitioners in all major cultures throughout history), in which the person needing Hypnotherapy/Guided Visualization chooses to be guided through a process used to facilitate various enhanced and empowering altered states of consciousness.

This system was created by combining these and other techniques and systems to create an empowering Holistic system for facilitating quick and powerful expansion of and access to greater levels human potential.

Altering states of consciousness has been proven to allow access to abilities and skills not normally accessible to the average conscious person due to the low level mental state they operate in. This includes such abilities as accessing and altering information in The Sub-conscious Mind, such as memories, as well as programs such as habits and actions, such as how you swing a golf club or racket, throw a ball, perform an artistic or martial arts move.

It can also be used to access higher levels, what is commonly known as levels of The Super-conscious Mind, allowing access to enhanced creativity and intuition, and even the senses of the mind and energy bodies most people aren't even aware that they have.

The easiest way we have found for people to understand this is to think of their mind as a computer, and their sub-conscious mind as the hard drive of that computer. Your beliefs and habits are stored as software programs in your sub-conscious mind, and often are flawed/detrimental, conflict with your conscious beliefs, causing confusion, interference and artificial limits/dysfunction. In order to change ingrained detrimental patterns/habits (mental viruses), that software must be reprogrammed.

In this process, the practitioner acts as a facilitator and expert programmer, guiding you through a customized process (tailored specifically and powerfully to your issue and relevant beliefs/habits) by which you choose and then implement beneficial changes in your sub-conscious programs: eliminating mental viruses and replacing those detrimental programs with beneficial, empowering ones.

This can be used to retrain your mind to perform a movement more accurately or powerfully, facilitate gaining access to memories more clearly or even access repressed/blocked or seemingly forgotten memories from current or past lives, and even remove trauma, baggage and PTSD triggers. It can also be used to facilitate access to enhanced creativity and super-human abilities.

 - ◆ They also include **Empowerment Assignments™** to help you apply the Q.E. Principles to your life and create the changes you wish to accomplish
 - Packages end after the purchased time has passed, regardless of whether you have chosen to use all of your available sessions.
 - ◆ If you are in good standing with the coach, (not abusing your opportunity for growth and the work the coach is doing with you), he/she may (upon request) choose to offer you the option to “roll over” your unused sessions into your next contract/package.
 - Extensions are not typically given, as we are unable to fill the temporarily-open time slot left by your missed session with other long-term clients, and so our schedules and therefore ability to compensate for that loss are restricted.
 - For example:
 If you purchase a 4 week package and do not use all the available sessions included in that package, the coach has the option to offer you the opportunity to add your remaining sessions to the next contracted package.

 If you purchase another package, the number of available sessions will be increased by the number of sessions not used from the last package.

 If you had one unused session from your last package, and purchase another package of 4 weeks of sessions, you would then have 5 available sessions during that multi-week time-frame instead of 4.
 - **Custom packages** can be negotiated on a case-by-case basis. See your coach for details.
 - During the course of your sessions, upgrades and specials may be offered: such as tools or extra sessions/classes, with either your current or another service provider.
